

Lightning Surge Protector

75 Ohm F-Female to F-Female 230V

BT512075

The 75 Ohm Lightning Surge Protector protects the cellular signal boosters from power surges caused by lightning strikes.

- High quality, durable build
- Works with all 75 Ohm systems
- F-Female connectors
- Protects RF systems from lightning surges
- Frequency range up to 3 GHz
- Attenuation less than 0.2 dB
- Requires additional ground cable

ELECTRICAL STUFF

Product Specifications may change without prior notice.

Item No.	BT512075
Frequency	800 MHz/1900 MHz/Dual Band/iDEN
Attenuation	Less than 0.2 dB
Impedance	75 Ohm
Connectors	F-Female
F-Connectors	Replaceable Fuse Cartridge
